10	The HUKO steel town project, founded by Erg use order to use the cheap labor there, to give and to help transform the religious peasant	built in eastern Sloval	lation
2.	The project's failure, classified as sabote	go, was due to:	25X1
	a. Shortage of coal. Six hundred to 700 of shipped every day from distant coal mix the Moravska Ostrava area.	carloads of coal had to les. Most of the coal o	be ame from 25X1
	2 4944		
	b. Although it would have been advantaged because of the short distance between a quality ore also had to be used in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their RUKC. The delivery of Soviet ore order because of the additional demands of FU	the project and the USSI Thus, the distance to lanced the advantage go co Klement Gottwald Iro supplies supplied in Ostrava was	t, high- to be covered gained in m Works with 25X1
3.	because of the short distance between a quality ore also had to be used in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their RUKC. The delivery of Soviet ore order	the project and the USSI Thus, the distance to the advantage of the supplies	t, high- to be covered gained in works with 25X1 paralyzed tried tric Finally
3.	because of the short distance between in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their HUKO. The delivery of Soviet ore order because of the additional demands of HUKO at last attempt to save the project, the to obtain coal for HUKO from Hungary and Rucurrent supply from the modern Hodonin posein the fall of 1952, the project was definited.	the project and the USSI Thus, the distance to the advantage of the supplies	t, high- to be covered gained in works with 25X1 paralyzed tried tric Finally
3.	because of the short distance between in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their HUKO. The delivery of Soviet ore order because of the additional demands of HUKO at last attempt to save the project, the to obtain coal for HUKO from Hungary and Rucurrent supply from the modern Hodonin posein the fall of 1952, the project was definited.	the project and the USSI. Thus, the distance to clanced the advantage at the control of the cont	thigh- co be covered gained in m Works with 25X1 paralyzed tried tric Finally urnaces
3.	because of the short distance between a quality ore also had to be used in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their HUKO. The delivery of Soviet ore order because of the additional demands of HUKO also because of the additional demands of HUKO statement to save the project, the to obtain coal for HUKO from Hungary and Rucurrent supply from the modern Hodonin posein the fall of 1952, the project was defined already completed. Comment: Presumably Swatopluk H	the project and the USSI. Thus, the distance to clanced the advantage at the control of the cont	thigh- co be covered yained in works with 25X1 paralyzed tried tric Finally urnaces
3.	because of the short distance between a quality ore also had to be used in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their HUKO. The delivery of Soviet ore order because of the additional demands of HUKO also because of the additional demands of HUKO statement to save the project, the to obtain coal for HUKO from Hungary and Rucurrent supply from the modern Hodonin posein the fall of 1952, the project was defined already completed. Comment: Presumably Swatopluk H	the project and the USSI. Thus, the distance to clanced the advantage at the control of the cont	thigh- co be covered yained in works with 25X1 paralyzed tried tric Finally urnaces
3.	because of the short distance between quality ore also had to be used in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their HUKO. The delivery of Soviet ore order because of the additional demands of HUKO at a tempt to save the project, the to obtain coal for HUKO from Hungary and Rucurrent supply from the modern Hodonin present the fall of 1952, the project was definitely already completed. Comment: Presumably Swatopluk For Foundries and Ore Wines.	the project and the USSI. Thus, the distance to lanced the advantage of the Edward Iron supplies of the Cottwald Iron splaced in Ostrava was UKO. Czechoslovak government umania, offering an electric station to Hungary. Itely closed, with two formards of the Carlos of	thigh- co be covered gained in m Works with 25X1 paralyzed tried tric Finally urnaces
	because of the short distance between quality ore also had to be used in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their HUKO. The delivery of Soviet ore order because of the additional demands of Hu In a last attempt to save the project, the to obtain coal for HUKO from Hungary and Rucurrent supply from the modern Hodonin pour in the fall of 1952, the project was definial ready completed. Comment: Presumably Swatopluk For Foundries and Ore Wines.	the project and the USSI. Thus, the distance to lanced the advantage of the Edward Iron supplies of the Cottwald Iron splaced in Ostrava was UKO. Czechoslovak government umania, offering an electric station to Hungary. Itely closed, with two formards of the Carlos of	thigh- co be covered gained in m Works with 25X1 paralyzed tried tric Finally urnaces
3°	because of the short distance between quality ore also had to be used in delivering counterty respect to the Soviet ore. The Vitkovi at Moravska Ostrava had to share their HUKO. The delivery of Soviet ore order because of the additional demands of HUKO at a tempt to save the project, the to obtain coal for HUKO from Hungary and Rucurrent supply from the modern Hodonin present the fall of 1952, the project was definitely already completed. Comment: Presumably Swatopluk For Foundries and Ore Wines.	the project and the USSI. Thus, the distance to lanced the advantage of the Edward Iron supplies of the Cottwald Iron splaced in Ostrava was UKO. Czechoslovak government umania, offering an electric station to Hungary. Itely closed, with two formards of the Carlos of	thigh- co be covered gained in m Works with 25X1 paralyzed tried tric Finally urnaces
